Experience

Graduate Research Assistant, Purdue University Jan 2021 - Present

- **SparseAuto**: Compile time optimizations for complex sparse tensor algebra multiplications using tensor kernel dis-association/distribution and fusion. This is an extension to our *SparseLNR* work. Intended to exploit the scheduling space more broadly and introduce an auto-scheduler.
- **SparseLNR**: Optimized sparse tensor algebra operations at compile-time using a novel loop nest restructuring algorithm. Filled the gap, partly, in fusing kernels with non-affine loop bounds in tensor computations. Achieved speedups of 0.86-1997x compared to the baseline. The paper written won the best-paper award at the International Conference on Supercomputing (ICS) '22. (C/C++, DSL, Tensor Algebra Compiler).

Software Engineer Intern, Meta, Menlo Park, CA May 2025 - Aug 2025

- Worked on design space exploration for a cache architecture in AI Systems Hardware/Software Co-Design for Meta's next-generation AI hardware.

- Implemented a cache simulator for the design space exploration.

Software Engineer Intern, Meta, Menlo Park, CA

May 2024 - Aug 2024

- Added float8 compiler support for graph-mode covering end-to-end flow from Pytorch to Glow/MTIA (Meta Training and Inference Accelerator) compiler.
- Implemented reference linear kernel (float8), quantization, and dequantization kernels (float8 to/from bfloat16).
- Integrated CI tests for graph-mode workflow.

Research Scientist/Engineer Intern, Adobe Research, San Jose, CA

May 2023 - Aug 2023

- Achieved 2-4x speedups for Adobe FireFly training by introducing activation checkpointing.
- Performed research on introducing model parallelism to Adobe FireFly training.

Software Engineer, Sysco LABS, Sri Lanka (Branch of Sysco Corporation, Houston, TX)

Feb 2019 - Dec 2020

- **Enterprise Menu:** Developed features for two of the most complex sections in a graph-based menu management system for multi-location restaurants. (JanusGraph, Neo4J, NodeJS, React/Redux, Java Spring MVC, SonarQube, GrayLog, AWS SNS, AWS S3)
